CREDIT UNIONS

The statistical information provided in the following review and in supporting schedules and composite statements, relates to the twelve months period from July 1, 1953 to June 30, 1954, inclusive.

During the period ending June 30, 1954, eighteen new credit unions began business and ten entered into liquidation. This turnover represents a normal situation with respect to these corporations whose operations are primarily on a local level and accordingly are subject to local influences which have a definite bearing on the possibilities of growth and development.

The following facts and figures present highlights of the composite financial condition of the credit unions on June 30, 1954 and changes effective during the previous twelve months period.

Total Assets

On June 30, 1954 the 470 credit unions in operation had total assets of \$117,520,254 which represents an increase of \$11,316,587 or 10.66% over the figure of June 30, 1953.

Personal Loans

Personal loans to members which represent a major phase of the operations and objectives of credit unions chartered by the Commonwealth, continued the upward trend which was resumed after the conclusion of World War II as the unsecured and partially secured classification rose approximately \$2,935,963 to the present outstanding balance of \$30,212,003 and the secured group increased \$2,186,346 to \$11,773,194. Together these two classifications comprise 35.73% of total assets at the present time.

Real Estate Loans

Holdings in real estate loans secured by first mortgages also continue to expand. The present outstanding balance of \$31,600,032 representing 26.89% of total assets reflects an increase of \$4,662,165 for the twelve months period.

Investments in Bonds and Notes

Investments in bonds and notes, most of which are in U. S. Government obligations, decreased \$1,745,827 during the year, but the present book value of \$15,110,859 or 12.86% of total assets continues to represent a substantial segment of these assets.

Other Investments

During the current twelve months period, holdings in shares of co-operative banks increased \$1,478,879 to a present total of \$12,789,207 and deposits in savings banks and in savings departments of trust companies and national banks increased \$429,925 to an outstanding balance of \$3,932,161. Investments in bank stocks increased \$209,676 to a total book figure of \$2,110,389 during the same period.

Cash on Hand and Due from Depository Banks

Uninvested assets represented by cash on hand and balances due from depository banks subject to check, increased \$420,080 during the year and the present combined total of \$7,291,034 equals 6.20% of total assets.

Shares and Deposits

Outstanding share capital increased \$9,147,422 or 10.87% during the year to a present balance of \$93,322,697 which is held by 369,277 members. Deposits including club accounts, rose \$320,543 to a total of \$9,560,912.

Capital Reserves

Reserves available for shrinkage and loss, as represented by the guaranty fund, undivided earnings, and the reserve fund, increased \$1,323,268 during the period and the present combined total of \$10,992,741 represents 9.35% of total assets.
